Esistel, Valledupar — *Backend Developer*

JANUARY 2014 - DECEMBER 2016

Gimsaber, Valledupar — *Full Stack Developer*

FEBRERO 2011 - DICIEMBRE 2013

RECENT PROJECTS

Mural — NodeJS, Typescript React, Postgresql, Blockchain.

Mural is a blockchain powered platform for instant payments and invoicing for contractors and vendors worldwide. I've been responsible for deploying critical pieces of the app as Virtual Accounts, LATAM OffRamp integrations, invoicing, etc.

GameOn — React Native, Typescript.

Mobile app for playing with your friends making predictions for your favorite games. I fully developed the Mobile app and multiple variations for 3rd party clients.

AFL Mint —NodeJS, Typescript, React, Flow Blockchain.

Web3 App running on Flow Blockchain for minting NFTs of your favorite AFL players. I developed the backend and the integration with Flow blockchain.
